

IMPORTANT NOTE

For video recordings of badge workshops, girls will need the following items as they watch:

- **A copy of the badge requirement guide**
- **Paper**
- **Pencil**

Before watching the video girls should briefly lookover the requirement guide.

During the video the instructor will address the audience and ask questions, or ask them to do an activity.

The video should be paused at that point and girls should write down their response and/or complete the activity.

Some badges require girls to make an informational poster for the community. These should be presented to the troop to complete the requirement.

After they are finished watching the video and associated activities girls should present their notes to the troop.
